

We Plan - You Plant Design Program

The “We Plan – You Plant” design program is a great choice for the “Do-It Yourselfer” who enjoys gardening, but just needs advice on what plants will work. It is not intended for large landscaping project, hardscapes or grading. It works very well for smaller areas of your yard. Just provide us with the following information and we will draw the design.

1. Photos - take photos of the area. Be sure to take several shots at different angles. You may print the photos or email them to us.
2. On the graph paper included in this packet, draw the area you wish to have landscaped. Each square represents 1 foot. Include all details such as walkways, doors, windows, faucets, downspouts, existing plants and/or stumps etc. Also include any existing trees that may be shading the area.
3. Fill out the enclosed questionnaire.
4. Bring all the information back to the garden center. Allow 2 weeks for us to complete the design. When the design is finished, we will set up a time for you to come to the garden center and select your plants.

At this time a deposit of \$75 will be taken for the design. If you spend \$500 on materials here at Schwarz Nursery, the \$75 will be credited back toward your purchase. If you do not choose to spend \$500 here, the \$75 will be the fee for the design that is yours to keep.

If you decide that you would like Schwarz Nursery to install this design for you, we will send a landscape designer to your house to make any necessary adjustments to insure accuracy.

Thank you for choosing Schwarz Nursery & Garden Center.

We Plan - You Plant
Design Program

Name: _____

Address: _____

City: _____ zip: _____

Home phone: _____ Cell: _____

Email: _____

Please check all of the following that apply

Soil conditions

- always wet
- wet in spring
- dry
- heavy clay
- new construction

Sun conditions

- full sun - 6+ hours
- partial sun - 4-6 hours
- shade - less than 4 hours

Direction faces

- north
- south
- east
- west

Plant preferences

- Evergreens
- Shrubs
- broadleaf
- perennials
- native plants

Location is:

- windy
- protected
- sloped
- poor drainage

Will you be?

- installing yourself
- Schwarz installing
- combo of both

What do you want to accomplish with this project?

**Are there existing plants that need to be removed or pruned? Please describe:
If you don't know what the plant is, please bring in a sample for us to ID.**

**Are there existing plants that need to be transplanted? We can tell you the best time
of year this should be done depending on the plant.**

Are you trying to screen out or frame a view? Please explain

Are there certain colors that you like or dislike?

Is there a problem with Deer or Rabbits in your area?

**How many hours a week do you like to garden? This question is helpful for us to
determine what type of plants to select for you regarding the maintenance required.**

**Please list some plants that you would like to see included if possible. Feel free to
roam around our garden center to get an idea of what you like or dislike**

Please use the graph paper to draw the area that you would like to have designed. Keep in mind that 1 square = 1 ft. Draw the area as if you are looking down from above it. Be sure to include any of the following that might be in the area. Please indicate on your drawing which direction is North.

Walkways

Windows/doors

Steps

Gas meters

Vents

Downspouts

Air conditioner

Water faucets

Utility poles

Stumps

Existing plants

House Overhangs

Indicate if there are any trees nearby that are shading the area

Any utility or irrigation lines that may be underground
